ZOYSIA JAPONICA

(Japanese Lawngrass)

Why not take advantage of the publicity this grass has received in the national garden and horticultural publications. Write to us for details.

It is believed that ZOYSIA JAPONICA will find its greatest use in the Crabgrass belt as it is most aggressive and dominant during the Crabgrass season and may be expected to exclude Crabgrass from the Turf.

Instructions for pregermination are available.

SEEDLESS WATERMELON SEED

(Sakata's)

A novelty commanding unusual interest. It will be much talked about this spring and you should be ready to feature it. Write to us for complete details at once. Seed is ready for immediate shipment from Japan.
